

ANJUMAN ARTS, SCIENCE & COMMERCE COLLEGE, BHATKAL

7.1.2

Policy Document on the Green Campus/Plastic Free Campus

Institution had pledged to actively coordinate cleanliness activities in the college and beyond the campus in accordance with the vision of maintaining clean and green campus

The broad vision is as follows:

1. Generating mass awareness on cleanliness and hygiene amongst students and staff members by holding regular cleanliness drives. The idea is to motivate them to contribute in a proactive manner.
2. Activities under 'Swachh Bharat Abhiyan' will be a key component of all the community work being done by NSS, NCC and Scout and Guide volunteers of the college.
3. Staff Members will be encouraged to participate in the cleanliness drive in the college campus.
4. Remove all kinds of waste material like broken furniture, unusable equipment etc.

5. Administer of the pledge by students and staff members to maintain cleanliness of the college campus and its surrounding areas on an annual basis.
6. Commit to manage waste and maintain clean campus especially during college events.

Green Campus Policy

The Green Campus Policy of the college visualizes a Clean and Green Campus where environmental friendly practices and education combine to promote sustainable and ecofriendly practices in the campus and beyond the campus. It also offers the institution an opportunity to take the lead in redefining its environmental culture through inculcating environmental ethics among the students and staff. Mission To create environmental consciousness among the society and actively involved in the activities to protect the environment for a sustainable, pollution-free and healthy life ahead.

Objectives of Green Policy

- To create awareness in students and staff to minimize the use of environment-friendly products and services.
- To protect and conserve ecological systems and resources within the campus.
- To inculcate the importance of cleanliness for a healthy life among student and staff
- To aware students about environmental issues by organizing Events like Awareness Campaigns, Cleanliness Drives, Workshops, Presentations, Tree Plantation Drives, Conference, Competition etc.
- To ensure judicious use of environmental resources to meet the needs and aspirations of the present and future generations.

A.H.M.'s

**ANJUMAN ARTS, SCIENCE AND COMMERCE COLLEGE,
ANJUMANABAD, BHATKAL - 581320**
(AFFILIATED TO KARNATAK UNIVERSITY, DHARWAD)

- To integrate environmental concerns into policies, plans and programmes for social development and outreach activities.
- To work with all stakeholders and the local community to raise awareness and seek the adoption of environmental good practice and the reduction of any adverse effects on the environment.
- To continuously improve our contribution to climate protection and adaptation to climate change and to the conservation of global resources.
- To continuously improve the efficient use of all resources, including energy and water, and to reduce consumption and the amount of waste produced, recovering and recycling waste where possible.
- To make the campus plastic free.
-

Green Campus Initiatives Include

1. RESTRICTED ENTRY OF VEHICLES

The institute encourages the staff and students to use the vehicles to reduce environmental pollution. Vendors are restricted to enter inside the college campus using automobiles and are asked to park their vehicles in the entrance. The approach road from the main road and the roads within the campus are laid with tar road and separate markings are made for walking of pedestrians. The path from the main gate to the collage buildings has Pedestrian friendly foot paths.

3. SAY NO TO PLASTIC

Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation and display boards in the premises. To restrict the use of plastic, measures have been taken to replace plastic tea cups and glasses with plastic free glasses in the canteen.

4. AUGMENTING FERTILE SOIL

Land within college campus is not suitable to grow trees and plants hence suitable fertile soil had been dumped during time to time to make campus green

4.LANDSCAPING WITH TREES AND PLANTS

Institute organizes tree plantation program every year at the College Campus. Faculty and students take part in the Plantation programme. Students and staff enthusiastically initiate and participate in the tree plantation drives on the campus and also outside the campus.

5. GREEN LAWN PREPERATION

After dumping fertile soil, land was made suitable to grow plants, external grass beds were used to prepare smooth turf

6.PLANTATION DRIVE

Van Mahotsav is part of every year celebration, while on several other occasions saplings of many different varieties are planted. Students together with NSS,NCC and Scout and Rover volunteers actively participate. Although the college has lush green campus with different species of trees, with great enthusiasm NSS,NCC volunteers, students, teaching and the members of the management plant trees in college premises as a part of this celebration.

7.DRIP IRRIGATION FACILITY: Drip irrigation facility has been provided to garden for efficient use of water during non-rainy season. Drip Irrigation involves placing tubing with emitters on the ground alongside the plants. The emitters slowly drip water into the soil at the root zone. Because moisture levels are kept at an optimal range, plant productivity and quality improve. Drip irrigation is the most efficient water and nutrient delivery system for growing crops. It delivers water and nutrients directly to the plant's roots zone, in the right amounts, at the right time, so

each plant gets exactly what it needs, when it needs it, to grow optimally. Water and nutrients are delivered across the garden in 'dripper lines' featuring smaller units called Drippers. Each dripper emits drops containing water and fertilizers, resulting in the uniform application of water and nutrients direct to each plant's root zone, across an entire garden within the campus.

8.Waste Management:The institution takes all the necessary precautions and full responsibility for disposing the waste generated at the college.There are different types of wastes disposed in the college for which there is a proper system functioning. The following wastes are being disposed by the college:

Solid Waste Management: College has a place on its campus where the solid wastes materials are disposed. Waste like plastic, metals, glass, cardboard, newspaper and stationery are systematically collected, segregated and sold to authorize vendors for its recycling. Dustbins have been installed throughout campus for waste segregation and disposal

Liquid Waste Management- Waste water generated from the laboratories is very small in quantity, the waste water is carried out through the pipeline and join the sewage tank.

E-waste Management-The College has optimized its inventory of all computers through reassembling, modification and up gradation by the institutions' own team of IT Administrator, faculty members and students. The e-waste generated from hardware which cannot be reused or recycled is being disposed off

The e-medical Waste,Biomedical Waste, Hazardous chemicals and radioactive wastes are not generated in the college.

9. Water Conservation Facility: The college has adopted strategies to maintain the water bodies and has implemented a good design for proper distribution of water in the campus. The Institution aims to provide the best services to the students in all the possible ways, in education facilities, in infrastructure and in basic necessities like water. The institution functions with the help of ground water. The institution is situated on hill top area called Anjumanabad. Water is moving down from hill top area hence the institution has its own hill top. Open well provide sufficient water to all Anjuman institutions during all the season and the institution never faces the problem of water. The ground water from well is filtered then pumped to the main storage tanks then supplied to smaller tanks placed at different locations in the campus. The water is distributed through well laid pipe network. The entire distribution system is well supervised. Rain water from the rooftops of the college Blocks will be collected in inter-linked ponds constructed in front of the block

10. Rain water Conservation

The institution has installed a rainwater harvesting system to ensure the supply of ground water. Rainwater harvesting is done at several points throughout the campus. The institution is situated in nature blessed west coast area which is coming under the highest rain recipient area in the country. Rainfall is directed through wide shallow ditches that run the length of the campus, ensuring rain water conservation. There is a pre-existing natural canal running through the campus to which the water from the institution building and surrounding area are directed. Institute maintains the canal in its natural way and uses the water flowing in the canal to recharge the well. Institution receives sufficient water for drinking and gardening purpose from the well during all the seasons.

11. Alternative Energy sources and installation of Energy Efficiency Equipment:

The College believes in reducing the consumption of electricity. Committed to install environment-friendly electrical appliances that save energy and reduce wasteful inefficiencies. The college has installed solar lamp in front of the college campus which save electricity during night. Most of the tube lights and lamps are replaced by LED/Sensor based LED in classrooms and passages to minimize the energy consumption. Total 113 LED bulbs/Tubes have been deployed in classrooms, labs, library and other places. Committed to keep lights off in function hall, classrooms, and Computer labs when they are not in use. Activate power management features on our computer and monitor so that it will go into a low power “sleep” mode when we are not working on it.

11.ECO CLUB: The Eco club was formed to look into matters relating to promote eco friendliness and address various environmental concerns within the campus and the surrounding community. The club educates and engages the campus community in environmental awareness, advocates for sustainable policies, and collaborates with local stakeholders. Ultimately, the goal is to create a greener, more sustainable campus that serves as a model for responsible environmental stewardship.

ECO CLUB for the Year 2022-23		
1.	Prof. Mushtaque K. Shaikh Principal	Chairman
2.	Prof. S. A. IndikarI	QAC Coordinator
3.	Prof.DAMODAR NAIK	Co ordinator
4.	Dr.D.S.Prabhu	Member
5.	Prof.R.S.Nayak	Member
6.	Prof.Umesh.Mestha	Member
7.	Mrs Niha	Member
8.	Mr.Jaydeep Shinde	Member

Eco Club

Objectives of ECO CLUB are

- To organise Vanamahotsava every year to improve greenery in the campus
- To promote environmental awareness and facilitate action so as to work towards creating an environment friendly campus
- To undertake various endeavours in relation to improving the relationship between the campus and the environment.
- To inculcate responsibility and commitment in students and staff, both at home and in the wider community.
- To make the campus plastic free

A.H.M.'s

**ANJUMAN ARTS, SCIENCE AND COMMERCE COLLEGE,
ANJUMANABAD, BHATKAL - 581320**
(AFFILIATED TO KARNATAK UNIVERSITY, DHARWAD)

- To promote eco-friendly environment in the campus.

Strategies:

- Motivate the students to keep their surroundings green and clean by undertaking plantation of trees.
- Promote ethos of conservation of water by minimizing the use of water.
- Motivate students to imbibe habits and life style for minimum waste generation, source separation of waste and disposing the waste to the nearest storage point.
- Revive the indigenous knowledge of organic farming, bio -fertilizer and rain water harvesting, use of renewable energy sources for sustainable development of our society.
- Sensitize the students to minimize the use of plastic bags, not to throw them in public places as they choke drains and sewers, cause water logging and provide breeding ground for mosquitoes.
